

256711A Tone Generator

The Tone Generator is a highly practical network installation and troubleshooting tool, which features a single or multi-tone signal, two test leads and a 4-conductor modular cable. The signal emitted by the Tone Generator can be easily traced by the *Probe*, even when cables are in a bundle or hidden in a mess of punch down blocks or wall plates.

The *Tone Generator & Probe* can be used to verify cable continuity, identify wiring faults, determine line polarity and voltage in network (Cat-5 and Coax) and modular telephone lines.

Features:

- 2-position switch for single tone or multi-tone signal
- Toggle switch to control 3 modes of operation
- 3-color LED indicator display for telephone line polarity, continuity and voltage testing
- Black and red testing leads and standard 4-pin modular cable for individual wire tests or modular jack tests
- Convenient compact size and simple application

*Available as a kit (with tone generator) 256713A

Specification Data Sheet		
Manufacture #	256711A Tone Generator	256713A Tone Generator & Probe Kit
Power Source	DC 9V battery x 1pcs	Probe: DC 9V battery x 1pcs Tone Generator: DC 9V battery x 1pcs
Power Consumption	4mA	90mA (Probe), 4mA (Tone Generator)
Tone frequency	800~1000Hz	
Operating Temp.	0°C~50°C	
Storage Temp.	-10°C~60°C	
Humidity	0 to 95% (non-condensing)	
Dimension	120mm x 63mm x 29mm Red, Black alligator clip cable length: 570mm RJ11 cable length 335mm	
Safety Approve	CE	
Approx. Weight	140g	225g
